NEW STRIDER 13

Concept

The new Strider 13 features a dynamic design with sleek profiles and ample space below deck. This model conveys solidity and safety thanks to well-designed geometries and high-quality finishes.

It is an excellent choice for the experienced owner seeking innovation in a sporty MaxiRib, offering the perfect balance between high performance and comfort.

Design

The dynamic design of the Strider 13 combines sleek profiles with a modern and attractive look, while the well-designed geometries convey robustness and safety.

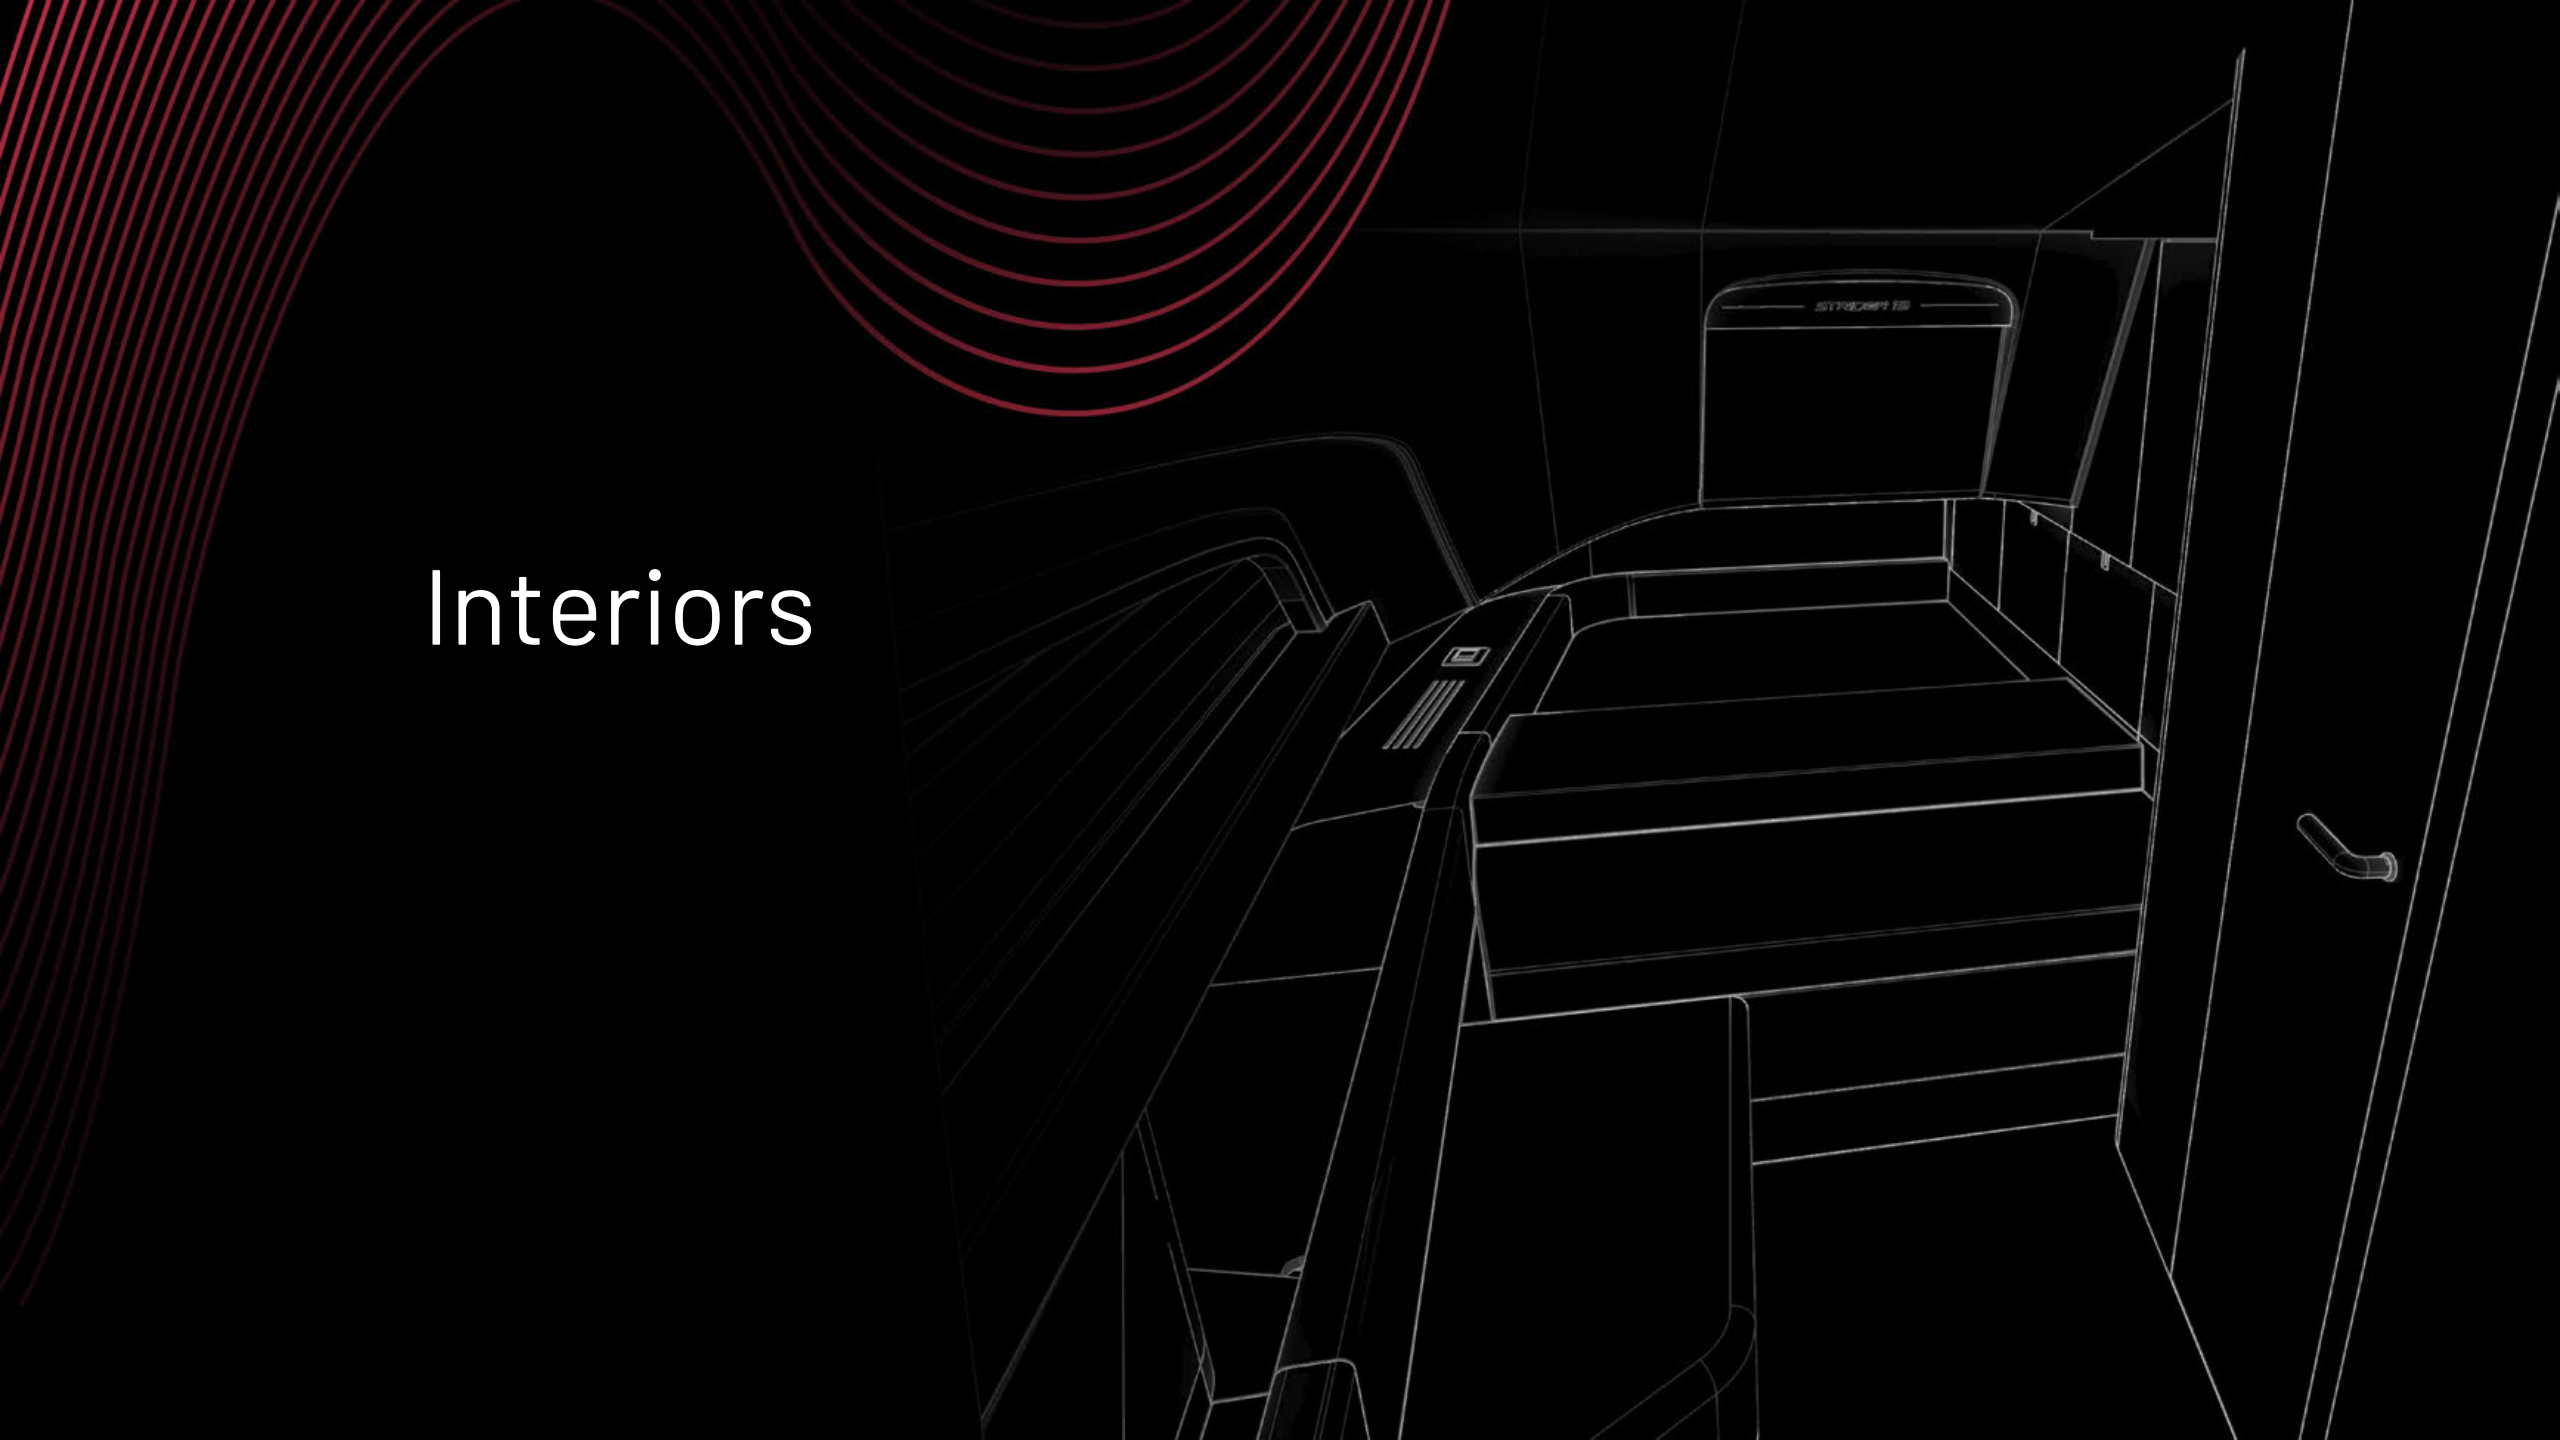
Particular attention is given to the choice of materials and finishes, with fine leathers and hand-made stitching.

Deck

Innovative, nimble and sporty, but also comfortable, safe and stable. The Strider 13 offers a new navigation experience that combines, both speed and relaxation.

Ample convivial spaces outside are ideal for socializing and relaxing.

Interiors



Despite its sporty vocation, the Strider 13 ensures a comfortable and practical navigation experience thanks to the spacious cabin below deck, with convertible spaces to maximize the use of the environment, and the large bathroom with a separate shower.
