MOSQUITO SCREENS
Mosquito screens for portlights
HOLDING TANK /TOILETS
Electric discharge In addition to the manual overboard and dockside discharge facilities an electric overboard discharge system is fitted. The electric overboard discharge system incorporates an electric valve with timer. When the pump is turned on a time delay allows the electric valve to open before the pump starts. When the pump is switched off the valve closes. This means the through hull seacock does not need to be opened/closed every time the pump is switched on. The through hull seacock is itself fitted with a micro switch which prevents operation of the pump when it is closed.
Aft cabin toilet to be connected into holding tank system
Run all sink / shower outlets into standard grey water tank with discharge into holding tank
EXTERIOR UPHOLSTERY / CANVAS / COVERS
